

## THE CORPORATE MAFIA BEHIND THE DAVOS CLIQUE

<https://www.weforum.org/partners>

*What the WEF and their accomplices call 'public-private' partnerships is in fact the merging of corporations and the state, or rather the takeover of corrupt governments by unelected billionaires, secret societies, lobbies and corporations to serve exclusively their interests, against us Humanity. The very definition of fascism.*

Some corporations are highly involved, main players, others are 'partners' (funders) or want to profit from the exploitation and enslavement of Humanity (*companies making surveillance technologies like IBM for example*). What better customers for a criminal corporation than captive serfs who have no choice but to buy their monopolistic products?

Shockingly many so-called 'partners' are not private corporations but public tax-funded state agencies and public services. Criminal governments are using taxpayer money to destroy public services.

It looks like a lot of big names (864) but they have only the power we choose to give them. Not using their services and boycotting their products is the first step towards liberation.
